Sprint Planning Notes

Team: 2

Date: 10/9/2021

Scrum Master: Diana

Development team: Dan, Josh, Justin

Sprint: 2

Attended: Dan, Diana, Josh, Justin

Product Owner: Dipto

1. Goal

Fix login and register with JWT
Business account registration
User account page

To complete book list features:

- Search, Sort, View Details

To have a list of books up in the database.

To allow for buying and checkout features and admin features.

Testing

2. Duration of the sprint

2 weeks

3. What is the team's vision for this sprint?

User management is completed with JWT working correctly. Books are in our database and displayed for our customers. Books can be added to cart and purchased.
Testing
Project is packaged and deployed with CircleCI and docker on AWS.

4. Estimation in story points

User Story	Story Points
As a user, I want to add items to cart, so I can purchase new or used books	13
As a user, I want to be able to pay for books using PayPal, so I know my banking details are secure.	13
As a publisher or shop owner, I want to be able to create a specialised account, so I can sell new books	2
As an administrator, I want to be able to approve or deny special users, so I can tailor functionality to their needs.	5
As a user, I want to search for books by their ISBN, so I can purchase the exact book I need.	2
As a user, I want to search for books using the author's name, so I can find other books I might enjoy.	1
As a user, I want to search for books using the title, so I can look at different cover pages of the same book.	1
As a admin, I want to download a report about the books in the system, so I can know metrics of the system	8
As an administrator, I want to be able to block accounts, so that I can moderate the community	2
